## Executive Profile

Senior research, writing and editorial leader with 35+ years' international experience across academia, publishing, technology and not-for-profit leadership. Founder-stage to global-scale Project Lead of the THRIVE Project operating in 44 countries on every continent. Expert in research translation, editorial governance, recruitment, and systems thinking, with a strong record of building high-impact publication portfolios, leading global editorial teams, and producing cross-culturally relevant and influential research outputs adopted across policy, business and education.

## Core Capabilities

- Research leadership & applied scholarship
- Writing, editing & editorial governance (Editor-in-Chief)
- Academic, policy & practitioner publishing
- Global recruitment & talent leadership (end-to-end)
- Program & project management (multi-country)
- Data science, analytics, dashboards, AI-assisted research
- Software & platform development
- Executive education, training & public speaking
- Cross-cultural leadership across Asia, Europe & Australia

## Selected Impact & ROI Deliverables

- Grew a global research and publishing organisation from inception to 600+ collaborators across 5 continents.
- Expanded publishing output to 500+ articles, plus whitepapers, peer-reviewed papers, and newsletters.
- Built a global audience of 26,000+ followers/subscribers.
- Led and edited 150+ webinars, workshops, and panel discussions reaching thousands of participants globally.
- Recruited, onboarded and led cross-cultural editorial, research and delivery teams across multiple continents.
- Reduced research and reporting cycles from months to weeks through data science and AI-assisted analysis.
- Negotiated exclusive thriving conference, workshops, and webinars in the lead up to the Brisbane Olympics 2032

## Selected Professional Experience

### THRIVE Project — Global Project Lead (2015–2025)

Founder-stage to global-scale leadership of an international not-for-profit focused on education in the field of thriving. Collaborating with UN-affiliated organisations, senior government leaders, deliverables

include over hundreds of public-facing live events (presentations, workshops, webinars) as well as podcast. Responsibilities include research direction, editorial oversight, recruitment, publishing strategy, platform development, partnerships, and global engagement.

### BH International Schools — Director of Studies | Guangzhou, China (2010–2013)

Academic and curricular leadership for 1,400 international students. Designed programs, led faculty recruitment and training, and ensured academic quality and compliance.

### Australian Computer Society — Vice-Chair/Branch Executive Committee (BEC) | Brisbane (2002–2022)

Executive leadership and project lead for ACS eLearn platform, a national eLearning platform serving 37,000 members. National NFP peak body for the ICT industry.

Currently casual remote researcher/lecturer at UniSQ, and formerly established and lead the RTO Techmore House becoming a Top 10 Queensland Training Center (1990's).
