Executive Profile

Senior program, research, and governance leader with 35+ years' international experience across not-for-profit, academic, public-sector, and technology-enabled environments. Founder-stage to global-scale Project Lead of an international initiative operating across 40+ countries. Recognised for translating complex research and policy into fundable programs, robust governance frameworks, and practical delivery models. Extensive experience leading distributed teams, engaging senior stakeholders, and delivering high-impact, cross-culturally relevant outcomes aligned with organisational and funding priorities. Systems thinker, solutions focused, climate scientist apt at transforming business and institutions at scale towards Thrivability.

Core Capabilities

- Program/portfolio leadership across research, policy, & delivery
- Funding-aligned research development, analysis, and reporting
- Editorial, knowledge, and quality governance (Editor-in-Chief)
- Academic, policy, & practitioner publishing for diverse stakeholders
- Global recruitment, onboarding, & leadership of distributed teams
- Multi-country program and project management
- Data analytics, dashboards, and AI-enabled decision support
- Digital platforms, systems design, and process optimisation
- Executive education, capacity-building, and senior facilitation
- Cross-cultural leadership across Asia, Europe, Australia, & global

Selected Impact & ROI Deliverables

- Scaled an international research and delivery organisation from inception to 450+ collaborators across 40+ countries
- Delivered 300+ applied research/policy-relevant outputs, i.e. reports, briefs, whitepapers, & peer-reviewed publications
- Built and maintained a global stakeholder audience exceeding 26,000 across research, policy, and practitioner communities
- Led 320+ strategic briefings, workshops, and forums, engaging governments, NGOs, academia, and industry
- Recruited and governed cross-functional, cross-cultural teams delivering consistent quality at scale
- Reduced analysis, proposal development, and reporting cycles by 40–60% through data science and AI-assisted workflows
- Negotiated and delivered multi-year partnerships and flagship initiatives aligned with major international programs & events

Selected Professional Experience

THRIVE Project — Global Project Lead (2015–2025)

Founder-stage to global-scale leadership of an international not-for-profit operating at the intersection of education, research, and public engagement. Worked with UN-affiliated organisations, senior government stakeholders, academic institutions, and industry partners. Accountable for program development, research direction, editorial and governance frameworks, recruitment, publishing strategy, digital platforms, partnerships,

and global stakeholder engagement. Delivered hundreds of public-facing initiatives including briefings, workshops, webinars, and long-form knowledge assets.

BH International Schools — Director of Studies | Guangzhou, China (2010–2013)

Senior academic and operational leadership for a large international education environment serving 1,400 students. Led curriculum design, faculty recruitment and development, quality assurance, and regulatory compliance within a complex, multicultural setting.

Australian Computer Society — Vice-Chair/Branch Executive Committee (BEC) | Brisbane (2002–2022)

Executive leadership within Australia's peak professional body for the ICT sector. Project lead for ACS eLearn, a national digital education platform serving 37,000 members. Contributed to governance, strategic planning, and national-scale digital capability initiatives.

Additional Relevant Experience

Currently a casual remote researcher and lecturer. Former founder and leader of Techmore House, a registered training organisation that became a Top 10 Queensland training provider, delivering accredited programmes at scale.

Publications & Editorial Leadership

Selected works include *The Thrivable Truth: Navigating the Greenfield* (ebook); *Transcending Beyond Sustainability Toward Thrivability* (journal article); *Global Threshold & Allocation Network* (working blueprint); *A Thrivable Future: Regenerative Economics* (podcast series); and applied dashboards and whitepapers. Authored hundreds of whitepapers publications across research, policy, and practitioner formats, and designed or hosted 200+ public events, briefings, and professional forums. Have authored hundreds of policy documents, reports, & articles.
